

# Your Program Starts **HERE!**

Fuel Up to Play 60 is designed to empower students and educators to work together and build healthier schools by creating positive experiences with "Healthy Eating" and "Physical Activity."

Fuel Up to Play 60 is a leading national in-school health and wellness program launched by the National Football League (NFL) and National Dairy Council (NDC), which was founded by America's dairy farmers, in collaboration with the United States Department of Agriculture (USDA). Fuel Up to Play 60's primary focus is to help schools meet their wellness goals, encourage youth to consume nutrient-rich foods (low-fat and fat-free dairy, fruits, vegetables and whole grains) and achieve at least 60 minutes of physical activity each day. Here in Indiana, your local team consists of American Dairy Association Indiana and the Indianapolis Colts.
